Definitions

These are selected definitions provided to assist you with the completion of this form. Further details can be found within the OECD Common Reporting Standard ("the CRS") for Automatic Exchange of Financial Account Information, the associated Commentary to the CRS, and domestic guidance. This can be found at the following link: <http://www.oecd.org/tax/transparency/automaticexchangeofinformation.htm>

'Controlling Person' This is a natural person who exercises control over an entity. Where an entity Account Holder is treated as a Passive Non-Financial Entity ('NFE') then a Financial Institution must determine whether such Controlling Persons are Reportable Persons. This definition corresponds to the term 'beneficial owner' as described in Recommendation 10 of the Financial Action Task Force Recommendations (as adopted in February 2012).

If the account is maintained for an entity of which the individual is a Controlling Person, then the 'Controlling Person tax residency Self-Certification' form should be completed instead of this form.

'Reportable Account' The term 'Reportable Account' means an account held by one or more Reportable Persons or by a Passive NFE with one or more Controlling Persons that is a Reportable Person.

'Reportable Person' A Reportable Person is defined as an individual who is tax resident in a Reportable Jurisdiction under the tax laws of that jurisdiction. Dual resident individuals may rely on the tiebreaker rules contained in tax conventions (if applicable) to solve cases of double residence for purposes of determining their residence for tax purposes.
